Easter food and food crafts

Edible Easter garden

**You will need:**

Paper plates; jelly baby sweets; chocolate mint sticks; round biscuit; marshmallow; green icing; green napkins; small sweets such as jelly beans

**How to**

Place a green napkin on the plate and screw up another napkin to create a grassy hill. In front of the hill, secure the round biscuit with green icing to seal the tomb. Make a cross by joining two mint chocolate sticks together with the icing and stand it in the marshmallow. Use the small sweets to make a path and jelly babies for the characters in the Bible story.
