2. Vegetables should be clean and bright in appearance - ensure to prepare them before displaying.
3. Vegetables should be neatly and properly trimmed. Remember to tie the tops of onions and ensure to leave leaves/stalks/roots where stated on the entry form.
4. All fruit and vegetables should be free of insects and diseases.
5. Ensure your exhibits in each display are of a similar size, shape, colour (uniformity). Remember the biggest exhibit is not always deemed the best. Select the shape most typical to the variety.
